TerraGraphics Environmental Engineering, Inc., [Company Overview](#)

TerraGraphics Environmental Engineering, Inc. (TerraGraphics) is a certified Historically Underutilized Business (HUBZone) founded in Moscow, Idaho in 1984 as a majority woman-owned environmental engineering consulting firm. With six offices in Idaho, Washington, Montana, and Nevada, TerraGraphics provides multidisciplinary engineering and environmental consulting serving both commercial and government clients. State of the art technology and personnel are employed to restore damaged resources, protect public health, and improve the quality of life through sustained, balanced approaches to development and conservation.

TerraGraphics has served a wide range of federal clients including:

U.S. Environmental Protection Agency
Bureau of Indian Affairs
U.S. Army Corps of Engineers
U.S. Department of Justice
Federal Emergency Management Agency
U.S. Department of Energy
Agency for Toxic Substances & Disease Registry
National Institute of Environmental Health Sciences
National Institute of Occupational Safety & Health
Bureau of Land Management
U.S. Forest Service
U.S. Fish and Wildlife Service

Authorized Negotiators:

Jerry Lee, President
(208) 882-7858

Ian von Lindern, CEO
(208) 882-7858

Jon Munkers, Business Development
(208) 336-7080

Linda Geidl, Administration Division Manager
(208) 882-7858

Awarded SIN(s)

- 899-1 Environmental Planning Services & Documentation
- 899-2 Environmental Compliance Services
- 899-4 Waste Management Services
- 899-7 Geographic Information Services (GIS)
- 899-8 Remediation Services

Disaster Recovery Purchasing SIN(s)

- 899-1RC Environmental Planning Services & Documentation
- 899-2RC Environmental Compliance Services
- 899-4RC Waste Management Services
- 899-7RC Geographic Information Services (GIS)
- 899-8RC Remediation Services

Services Provided for SIN(s)

SIN 899-1 Environmental Planning Services and Documentation

TerraGraphics offers the following services under SIN 899-1:

- NEPA compliance including Environmental Impact Statements, Environmental Analyses, Biological Opinions, and associated services
- Endangered Species and/or Wetlands Analysis
- Vulnerability Assessments
- Economic, Technical and/or Risk Analysis
- Watershed Management Plans, Integrated Resource Management Plans, and Other Natural Resource Management Plans
- Environmental Program Management and Environmental Regulation Development
- Biochemical Protection
- Identification and Mitigation of Natural and Man-Caused Threats

TerraGraphics has completed a number of documents used in planning and decision making, ranging from biological assessments to complete human health risk assessments. TerraGraphics' CEO, Ian vonLindern, has served on a number of EPA advisory boards during the evaluation and development of environmental health standards and other environmental regulations.

SIN 899-2 Environmental Compliance Services

TerraGraphics offers the following services under SIN 899-2:

- Compliance Management and/or Contingency Planning
- Environmental Compliance Audits
- Permitting
- Fish Xing
- Spill Prevention/Control and Countermeasure Plans
- Community Right-to-Know Act Reporting
- Pollution Prevention Surveys

TerraGraphics has assisted clients for compliance with federal, state, and local environmental laws and regulations. TerraGraphics has worked to complete permits,

plans, and surveys, as well as the review and development of assessment tools for government agencies. Some examples include Idaho's Risk Evaluation Model (REM) and the Integrated Exposure Uptake Biokinetic (IEUBK) Model for Lead in Children. FishXing (pronounced "Fish Crossing") is software designed by a TerraGraphics expert in collaboration with the United States Forest Service to assist engineers, hydrologists, and fish biologists in the evaluation and design of culverts and other in-stream structures for fish passage.

SIN 899-4 Waste Management Services

TerraGraphics offers the following services under SIN 899-4:

- Data Collection, Feasibility or Risk Analyses
- RCRA/CERCLA Site Investigations
- Hazard and/or Non-Hazard Exposure Assessments
- Waste Characterization and Source Reduction Studies
- Waste Management Plans and/or Surveys
- Waste Minimization/Pollution Prevention Initiatives
- Development of Emergency Response Plans
- Review of Technologies and Processes Impacting Waste Management
- Review and Recommendation of Waste Tracking or Handling Systems
- Management, Furnishing or Inventory of Material Safety Data via CD, Internet, Facsimile, Mail or Other Media

TerraGraphics has 25 years of experience working on the Bunker Hill Superfund Site, one of the largest Superfund sites in the nation. We have completed or worked on nearly every CERCLA document completed for the site. More than 50,000 environmental samples have been collected. Many of these samples have gone through EPA's contract laboratory program (CLP). TerraGraphics has completed the feasibility and risk assessment work in support of the CERCLA process. Waste management is a core competency and strength of TerraGraphics.

SIN 899-7 Geographic Information Services

TerraGraphics offers the following services under SIN 899-7:

- Mapping and Cartography
- Natural Resource Planning
- Site Selection
- Migration Pattern Analysis
- Integration of Global Positioning Systems data with geospatial analysis
- Predictive modeling for resource management assessments (e.g., watershed analysis, wildfire risk, hazard exposure analysis)
- Pollution Analysis
- Emergency Preparedness Planning
- Data Interpretation
- Geologic Logs, Topographic Data, 3D/4D Interactive Visualization Packages
- Geo-statistical and variographic analysis of features and attributes
- Satellite imagery analysis and change detection

TerraGraphics' name is derived from the use of Geographic Information Systems in the environmental and engineering fields. TerraGraphics has used graphic information to track and link environmental data since in the early 1980s. Dr. William Schlosser,

TerraGraphics' GIS Administrator, has more than 20 years of experience using GIS to perform complex analyses and graphically present environmental data and information.

SIN 899-8 Remediation Services

TerraGraphics offers the following services under SIN 899-8:

- PowerProbe 9600: a hybrid Geologic Probe/Hollow Stem Auger Drill Rig
- Ecological Restoration
- Wetland Restoration
- Ordnance Removal and Support
- Preparation, Characterization, Field Investigation, Conservation and Closure of Site
- Long Term Monitoring/Long Term Operation (LTM/LTO)
- Containment, Monitoring and/or Reduction of Hazardous Waste Sites
- Emergency Response
- UST/AST Removal
- Air Monitoring
- Soil Vapor Extraction; Stabilization/Solidification; Bio-Venting; Carbon Absorption and/or Reactive Walls and Containment

TerraGraphics has been the State of Idaho's remediation contractor for one of the largest Superfund Sites in the nation, the Bunker Hill Superfund Site. We have worked on nearly every remedial element associated with the cleanup at Bunker Hill. TerraGraphics also owns a PowerProbe™ 9600 hybrid direct push Geologic Probe/Hollow Stem Auger drill rig equipped with a Cathead that is ideally suited for drilling where environmental contamination is a concern. The direct push component of the rig allows for sample retrieval without the generation of cuttings or contaminated drill wastes. This drill rig is mounted on a Ford F-550, providing access to areas not accessible with a larger drill rig.
